Connect with an Entry Adviser

1

- Students interested in career training and direct transfer programs must meet with an Entry Adviser in Student Success.
- Explore career pathways, college services and discuss entry requirements.

Apply for Admission & Financial Aid

2

- Apply for admission in person or online.
- Complete your FAFSA online at fafsa.gov and visit the Financial Aid Department to submit necessary documents (Building I-205).
- If you have questions or need assistance with your FAFSA, visit the Learning Resource & Career Center (Building C-102)
- If you are a Veteran or using VA benefits call (425) 235-2352 ext. 5805 for an appointment.

Assess and Review Your Skills

3

- Prep for the AccuPlacer test by visiting the Learning Resource & Career Center Building (C-102)
- Pay for the ACCUPLACER test in the Cashier's Office - (Building I-230) before going to Testing Services.
- Review your assessments with an Entry Adviser and select a program of study (Building I-218).

Register for Classes, Pay Tuition & Buy Books

4

- Register for classes in Enrollment Services (Building I-218).
- Pay tuition and fees, purchase your books, and get started!

Get Started!

For admission information and applications, visit: [RTC.edu](https://rtc.edu)

To schedule an appointment with an Advisor call (425) 235-2352 or visit the Student Success Center in the Roberts Campus Center, Building I

STUDENT TUITION EASY PAYMENT PLAN

What is STEPP?

- The Student Tuition Easy Payment Plan (STEPP) program allows you to pay your tuition on an installment plan.
- To enroll, complete a STEPP enrollment form at the Cashier's office before the tuition due date, or at the time of registration (if later).
 - Each quarter you must enroll with the Cashier when making your first payment.
 - Payments are made in three installments (two for summer).
 - There is a quarterly \$25 nonrefundable enrollment fee.
 - Any partial payment made toward tuition without enrolling in STEPP could result in administrative withdrawal from classes.

For more information about our Student Tuition Easy Payment Plan please contact the Cashier's office:
(425) 235-2352, ext. 5910.

Enrollment Services (425) 235-2352 Student Success Center (425) 235-5840 Financial Aid (425) 235-5841

Tuition and fees reflect 2017 - 2018 amounts.

NOTIFICATION OF RIGHTS UNDER FERPA

The Family Education Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records.

1. The right to inspect and review the student’s educational records within 30 days of when the Registrar’s Office receives a prior written request.
2. The right to request the amendment of the student’s educational records the student believes is inaccurate.
3. The right to consent to disclosures of personally identifiable information contained in the student’s educational records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with U.S. Department of Education concerning alleged failures by RTC to comply with the requirements of FERPA. RTC designates the following information as Directory Information: student name, address, telephone number, date of birth, level of education, major field of study, certificates or degrees awarded, and the most recent previous educational agency or institute attended by the student. Directory Information may be released by RTC without student consent unless the student specifically requests in writing that such information not be released. RTC will not release Directory Information for commercial or other purposes not related to the college program or the conduct of official government business. RTC will release Directory Information as required to do so under the Solomon Amendment. For more information contact Enrollment Services, Registrar’s Office (425) 235-2352.

CANVAS AT RTC

All courses at RTC are web-enhanced; the Canvas LMS is our campus-wide grade book. Students can view their syllabi and course outcomes in Canvas, and can utilize a variety of other tools to stay on track. Log in at rtc.edu/canvas with your Student ID number and the first 8 letters of your last name. Setup and sit-down help with Canvas can be found in the LRCC (C-102). Specific questions can be sent to eLearning@rtc.edu.

ONLINE & HYBRID COURSES AT RTC

Students enrolling in online and/or hybrid courses will need the following to use Canvas, which is designed for maximum compatibility and minimal requirements.

Operating Systems:

- Windows XP SP3 and newer
- Mac OSX 10.6 and newer
- Linux - chromeOS

Mobile Operating Systems:

- iOS 7 and newer
- Android 2.3 and newer

Computer Speed and Processor:

- Use a computer 5 years old or newer when possible
- 1GB of RAM
- 2GHz processor
- Internet access: through an ISP. Minimum of 512kbps

Supported Browsers:

- Chrome 43 and 44 – Recommended browser
- Internet Explorer 10 and 11
- Safari 7 and 8
- Firefox 39 and 40
- Flash 17 and 18
- Respondus Lockdown Browser For online testing,

(425) 235-5840 (*Student Success Center*)

The Running Start program provides an opportunity for high school juniors and seniors to attend college-level classes at RTC and earn both college and high school credits, tuition-free. Home-schooled students who are at least 16 years of age and have not earned a high school diploma may also participate in the program.

THE PUGET SOUND DUAL CREDIT CAREER CONSORTIUM

(425) 235-5840 (Student Success Center)

RTC has articulation agreements with 32 high schools in the Puget Sound Dual Credit Career Consortium. These agreements allow students to get direct RTC credit for specific skills they have learned while in high school. For hours, see Student Success Center, on page 12.

TRANSFER CREDITS

(425) 235-2352 (Enrollment Services)

Transfer credits from other institutions will be considered upon validation of official transcripts and assessment of coursework.

TESTING SERVICES

(425) 235-2352, ext. 5704

Before students can enroll in an RTC Professional Technical program, they are required to connect with an Entry Adviser in Student Success. The ACCUPLACER is a computer-based placement test that assesses reading, writing, and math skills. RTC currently only requires students to take the math portion of the exam. The ACCUPLACER is offered on the computer with no time limit. Cost for this exam is \$25.00 for three exams, or \$10.00 each.

RTC no longer requires students to take the Reading and Writing portion of the ACCUPLACER. Students enrolling in a Professional-Technical Program or General Education English class at RTC will take a Directed Self-Placement test. This assessment may only be taken once. No test appointment is necessary, and this exam is free of charge. All tests administered in Testing Services require testers to bring picture identification and a copy of the receipt showing payment for the test.

The Testing Services calendar is located at: rtc.edu/testing-services.

For GED (General Educational Development) test registration go to: GED.com.

VETERANS SERVICES

(425) 235-2352, ext. 5805

Students who are veterans or dependents of veterans looking to enroll and use veteran benefits should contact Veterans Services by email at veterans@RTC.edu or by phone at (425) 235-2352 ext. 5805. Once an appointment is set, Veterans Services staff will meet with the prospective student and discuss fields of study. Veterans Services will assist the prospective student in completing the admission process and applying for all available funding and discounts.

BASIC FOOD EMPLOYMENT AND TRAINING (BFET)

(425) 235-5840 (Student Success Center)

If you are currently receiving Basic Food benefits (formerly known as “Food Stamps”), or are eligible to do so, our BFET program may help with tuition and books and provide access to other support services, including child care funding. This program is open to students in Basic Skills classes (including ESL, GED and ABE) as well as for career training programs.

OPPORTUNITY GRANT

(425) 235-2352, ext. 5720 (Financial Aid)

Students eligible for the Opportunity Grant may receive funds to cover 45 credits of tuition/mandatory fees and up to \$1,000 for books and supplies. Support services such as tutoring, college success workshops, emergency child care, and emergency transportation are also part of the Opportunity Grant program.

RESIDENCY REQUIREMENT/TUITION

(425) 235-2352, ext. 5528

The State of Washington has established specific criteria for students to qualify as residents for tuition paying purposes (references: RCW 28B.15.015 and WAC 250-18.020250).

For tuition purposes, a state resident is one who is a U.S. citizen, who has permanent immigrant status, refugee-parolee or a qualifying visa (A, E, G, H1, I, K, or L), and 1) has established a domicile (residence) in the state of Washington primarily for purposes other than educational for a period immediately prior to the first day of the quarter and was financially independent from parents or legally appointed guardians for the calendar year during which the college enrollment begins, or 2) is a financially dependent student, one or both of whose parents or legal guardians have maintained a domicile in the state of Washington for at least one year immediately prior to first day of the quarter. To apply for residency reclassification, students submit residency questionnaire and provide required documentation to Enrollment Services. Students may apply for residency reclassification through the 30th calendar day of the quarter. See residency questionnaire for complete details.

Residency questionnaires are available online, in Enrollment Services or by calling (425) 235-2352, ext. 5531. Note these additional points:

- Residence is not an equivalent of domicile only. You must also provide documentation supporting student’s financial independent or dependent status.
- The domicile of a minor attending is normally that of the parent or legally appointed guardian.
- International students attending RTC who have been issued an I-20 form are classified as non-resident regardless of length of residency in Washington state.

NON-RESIDENT WAIVER

The Washington State Board of Technical Colleges has authorized the colleges to waive a portion of the non-resident tuition rate for United States citizens and USCIS permanent residents who have not met the above criteria for in-state residency. RTC honors this automatic waiver at the time a student submit an application to the College. The student pays the non-Washington resident tuition rate.

HB 1079 (UNDOCUMENTED PERSON) WAIVER

Students who are not permanent residents or U. S. citizens may qualify for resident tuition at Washington state colleges, under provisions of HB 1079 passed July 1, 2003. To qualify students must complete an affidavit declaring they have resided in Washington state for three years immediately prior to receiving a high school diploma and completed a full senior year at a Washington state high school or completed the equivalent of a high school diploma in Washington. The Affidavit/Declaration/Certification form is available online. For more information please contact the Enrollment Services office (425) 235-2352.

HOW TO OBTAIN YOUR BACKGROUND CHECK MEDICAL AND DOCUMENT TRACKER - ALLIED HEALTH PROGRAMS

You will be required to obtain your own criminal background check, set up an account for immunizations and process documentation tracking prior to registration, for a \$99.00 fee through the third party's secure online platform.

[CastleBranch](#).

Directions:

Go to <https://portal.castlebranch.com/rr63> and enter the appropriate package code for your program.

Allied Health Programs

- *Anesthesia Technologist – RR65*
- *Central Service Technician – RR64*
- *Dental Assistant – RR67*
- *Massage Therapy Practitioner – RR68*
- *Medical Assistant – RR69*
- *Medical Assistant - Phlebotomy – RR71*
- *Ophthalmic Assistant – RR76*
- *Nursing – RR75nur*
- *Registered Nurse (LPN to RN) – RR75lprn*
- *Nursing Assistant – RR75na*
- *Pharmacy Technician - RR72*
- *Surgical Technologist – RR73*

You will then be directed to set up your CastleBranch account. Your results will be posted directly to your CastleBranch account, once available. You will be notified if there is any missing information needed to process your order. Your order will show as "In Process" until it has been completed in its entirety. Results of the background check are usually available within 3-5 days, although some searches take longer. Please allow adequate time when ordering. Your school's administrator can also securely

view your results online with their unique username and password.

If you need assistance please contact CastleBranch at (888) 723-4263 or <https://mycb.castlebranch.com/help> and a student support representative will be available.

Monday - Thursday 8:00AM - 8:00PM

Friday 8:00AM - 6:00PM EST.

Sunday 10:00AM - 6:30PM EST.

WORKER RETRAINING

(425) 235-5840 (Student Success Center)

You may be eligible to receive financial aid for approved training programs to help cover the cost of tuition, books, child care and transportation if you meet any of the following conditions:

- You are currently receiving unemployment benefits
- from the State of Washington
- You have exhausted unemployment benefits within the last 48 months
- You have received notice of a future layoff
- Are formerly self-employed (closed down business in last 48 months due to economic downturn)
- You are unemployed or underemployed after having been dependent on another family member's income, but no longer supported by that income due to separation, divorce, death, job loss or permanent disability of the main wage-earner
- You are a veteran discharged with in the last 48 months or active duty military member who has a separation notice
- Are a vulnerable worker meeting 2 of the following criteria:
 - Employed in a job that is "not in demand" determined by local demand-decline list
 - Have earned less than 45 college credits and no prior degree/certifications
 - Need to upgrade your skills to remain employed at your current job

WORKFIRST SERVICES

(425) 235-5840 (Student Success Center)

If you receive TANF assistance through DSHS, you may be eligible for free career training at RTC. Parents must be referred by their DSHS case manager. Call (425) 235-5840 for more information and to sign up for a TANF student orientation.

PROGRAM OPTIONS AVAILABLE:

The **ENGLISH LANGUAGE ACQUISITION (ELA)** Foundations program supports immigrants and refugees to improve their English for college and career success. Courses address skills in reading, writing, listening, speaking, technology, and math.

The **HIGH SCHOOL EQUIVALENCY (HSE)** program supports adults in improving their skills in reading, writing, oral communication and math in the context of science, social studies, art, health, and technology. Students may elect to prepare for their GED® exams or pursue their Adult High School Diploma (HS21+). HS 21+ is an opportunity for adults aged 21 and over to complete their Washington State High School Diploma by demonstrating competency in the required subject areas. The program combines current coursework with previous learning and experience. Students select from courses focused on English Language Acquisition (ELA) or Science, Technology, Engineering, and Math (STEM). Bilingual Spanish/English courses are also available in the HSE program.

The **COLLEGE & CAREER READINESS (CCR)** program supports students in intensive preparation for the next steps of their college and career pathway.

ON CAMPUS COURSE AVAILABILITY

Once you have completed Orientation and Educational Planning, you and your orientation instructor will choose your courses. Your orientation instructor will help you register. Courses are available during the following timeslots. There are also hybrid courses, which do not meet in class every day, but do include online coursework which must be completed outside of class time.

*Not all programs are Financial Aid eligible. Please call the Financial Aid Office for current aid information at (425)-235-5841.

GET STARTED!

CURRENT STUDENTS Talk to your current instructor about placement and registration.

NEW STUDENTS To register for all classes ON Campus: You will register for Orientation and Educational Planning. During the 4-day Orientation, you will learn about the program, possible course options, and take placement tests. You will be placed into classes at the orientation. Register and pay tuition (\$25) in person at the Enrollment Services office, Building I Roberts Campus Center.

ORIENTATION AND EDUCATIONAL PLANNING

This course will (a) introduce adult learners to the learning options in the department, (b) provide learning assessment, (c) explore student goals and challenges to develop a personal learning plan, and (d) provide orientation to online learning tools. Students must complete this orientation prior to attending other courses in the department.

BIOLOGY

INTRODUCTION TO ANATOMY AND PHYSIOLOGY

This course provides students with an introduction to the basic concepts of anatomy and physiology. It includes organization, classification and control of anatomical structures and an introduction to the major body systems. The course covers some medical terminology and introduces some concepts from chemistry, and biochemistry. This course is intended for non-science majors or entry level allied health majors.

FRIDAY LABS - 9/28, 10/19, 11/16 2:30PM-6:30PM F101

GENERAL BIOLOGY

Students explore the basic biological principles that describe and explain the nature of life. Topics include cell biology, molecular biology (including basic biochemistry and DNA structure and function), metabolism, and genetics. Students practice skills in both the classroom and the laboratory through formats such as group exercises, laboratory activities, quizzes, and exams.

CHEMISTRY

INTRODUCTION TO CHEMISTRY

This introductory course discusses the basic concepts in general and inorganic chemistry. It is designed to prepare students for coursework in health sciences or more advanced scientific coursework by laying the foundation of the most elemental science - chemistry. Topics covered range from the nature of atoms to chemical reactions and include homework, laboratories, exams, and group exercises. Prerequisite: placement into MATH 095 or completion of MATH 085 with a 2.0 or

higher.

INTRODUCTION TO ORGANIC & BIOLOGICAL CHEMISTRY

Introduction to organic chemistry and biochemistry includes study of the nomenclature, structure, reactions and synthesis of organic compounds and biochemistry applications in nursing field. Structure and properties of the major classes of organic compounds with particular reference to organic molecules and their relationship to polymers, such as carbohydrates, lipids, proteins, and nucleic acids. Course is primarily intended for those who are interested in the application of the principles of organic chemistry and biochemistry to related areas of science such as genetics, microbiology, physiology, and nutrition. Course learning involves lectures and labs. Prerequisite: CHEM& 121 or instructor permission.

COMMUNICATION

INTRODUCTION TO COMMUNICATION

In this course students study the fundamentals of the communication process and apply them to personal and workplace relationships. Emphasis is on applying communication theory to interviewing, small group communications and public speaking. Students are required to prepare and give oral presentations.

ENGLISH

ENGLISH COMPOSITION

This college-level writing course develops a wide-range of expository writing and critical-thinking skills, including audience awareness, persuasive purpose, independent editing, and resource and literacy analysis. Students incorporate composition ideas from primary experience and secondary sources. Students learn and demonstrate skills in integrating and documenting into their writing researched materials, according to an academically-recognized style, such as APA, Chicago, or MLA. Students revise drafts based on constructive comments offered by their peers and instructor. Upon successful completion of the course, students are able to write essays (of at least 1,000 words), demonstrating the conventions of standard written English. Prerequisite: COMP 100 with a 2.0, or recommendation from directed self-placement (DSP).

DESCRIPTIVE STATISTICS WITH ALGEBRA II

This course provides an introduction to statistics and algebra for non-STEM majors and is based on the Statway curriculum for teaching statistics with integrated algebra. This is the second quarter of three in the Statway sequence. This course covers concepts and methods of statistics with an emphasis on data analysis. Topics for this course include: exponential functions, solving linear equations, probability and introduction to logarithms. Application problems will be taken from numerous fields. This sequence is recommended for students with majors that require no mathematics beyond freshman-level statistics. Completion of the MATH 091, MATH 092, and MATH 136 sequence is equivalent to finishing a college level statistics course (such as MATH& 146).

INTERMEDIATE ALGEBRA

This course covers the following topics: rational expressions; solving rational equations; rational formulas and variation; rational exponents and radicals; complex numbers and operation with complex numbers; quadratic equations, completing the square and the quadratic formula; functions and their graphs; domain and range of functions; inverse functions; exponential and logarithmic functions; properties of logarithms; solving exponential and logarithmic equations. Prerequisites: completion of MATH 085, or AMATH 185, with a grade of 2.0 or higher, or Accuplacer elementary algebra score of 70 or greater, or other placement.

INFERENCE STATISTICS

This course provides an introduction to statistics and algebra for non-STEM majors and is based on the Statway curriculum for teaching statistics with integrated algebra. This is the third quarter of three in the Statway sequence. This sequence covers concepts and methods of statistics with an emphasis on data analysis. Topics for this course include probability distributions, confidence intervals, and hypothesis testing for proportions and means. Application problems will be taken from numerous fields. This sequence is recommended for students with majors that require no mathematics beyond freshman-level statistics. Completion of the MATH 091, MATH 092 and MATH 136 sequence is equivalent to finishing a college level statistics course (such as MATH& 146).

MATH IN SOCIETY

This college level course provides a mathematical perspective of contemporary issues. The course is designed for students who do not intend to continue in mathematics or science. Topics vary but may include areas of finance, statistics, data analysis, logic and applications relevant to humanities, social sciences and education. Content emphasis is on problem solving and quantitative reasoning. Prerequisite: Completion of AMATH 195 or MATH 095 with a 2.0 or better, or Accuplacer college-level math score of 40 or greater, or other placement.

FALL

MUSIC

MUSIC APPRECIATION

This course helps students develop an understanding of the elements and vocabulary of music while deepening their appreciation of music as a reflection of cultural tradition and innovation. Students gain tools for analysis such as the historical, political and cultural influences on musical traditions. Class activities include lectures, written materials, and a variety of listening experiences.

NUTRITION

HUMAN NUTRITION

This course provides students with information pertaining to the functions of nutrients in the body and the physiologic processes involved in digestion and absorption. Topics covered include anatomy and physiology of digestion and absorption; specific utilization of carbohydrates, protein, and fats; vitamin and mineral supplements. Other topics include factors that govern nutrient requirements, and the impact of diet on health and disease. Basic principles of chemistry, biology, and physiology are applied to the study of nutrition. This course is suggested for students majoring in nursing or other health-related areas.

AMERICAN GOVERNMENT

This course explores the structure and dynamics of American national government. The course provides a broad-based introduction to the ideas and institutions that have shaped politics in the contemporary United States. Special areas of focus will include: the Constitution and the debates of the founding era, the institutions of modern American government, and the political behavior of the American mass public. The course will draw inspirationally on documents from America's Revolutionary and Civil War periods as well as on key historical and contemporary Supreme Court opinions, Congressional laws, and Presidential policy papers. This course will also analyze how the dynamics of regional and global forces have impacted on domestic politics and American government, informing the shaping of its attitudes and policies to the rest of the world.

PSYCHOLOGY

GENERAL PSYCHOLOGY

General Psychology surveys the knowledge and methods of the discipline of psychology. Emphasis is placed upon application of psychological knowledge to daily situations, and upon accessing and assessing information from a variety of sources about behavior. Skills in scientific reasoning and critical thinking are developed during this course. Areas of psychology to be included are: research methods, neuroscience, human development, sensation, perception, consciousness, learning, memory, cognitive processes, intelligence, motivation, emotion, personality, psychological disorders, psychotherapy, stress and health, and social psychology. Basic computer and keyboarding skills strongly recommended.

LIFESPAN PSYCHOLOGY

This course covers the concepts of human life span development in psychology and research from the prenatal stage to end of life experiences. Life span development includes socio-emotional, cognitive, and physiological development. Included are the influences on human development by such factors as biology, life experiences, family, and culture. Each individual, although unique follows a process that is affected by Primary caregivers, siblings, extended family, teachers, friends, partners, and events. Emphasis will be on understanding human development and the influences of family and culture that includes ethnicity, beliefs, family structure, traditions, and gender.

REVIT ARCHITECTURE FUNDAMENTALS

This course is designed for new users of Revit Architecture. The course covers the basics of Autodesk Revit Building, from building design through construction documentation. Students are introduced to the concepts of Building Information Modeling and the tools for parametric design and documentation. In the hands-on lab sessions, the students use the parametric 3D design tools of Revit to design projects and use the automated tools for documenting projects. No previous CAD experience is necessary. However, architectural design, drafting or engineering experience is highly recommended. It is recommended that you have a working knowledge of Microsoft Windows (XP, 2000, or NT 4.0). (Note for architects: program number LRA011, 24 LU hrs, non HSW).

REVIT ARCHITECTURE BIM MANAGEMENT

Building Information Modeling (BIM) is an approach to the entire building life cycle. Revit Architecture is a powerful BIM program that supports the ability to coordinate, update, and share design data with team members throughout the design, construction, and management phases of a building's life. The objective of the Revit Architecture BIM Management course is to enable students who have worked with Revit to expand their knowledge in setting up office standards with templates that include annotation styles, preset views, sheets, and schedules, as well as creating custom element types and families. (Note for Architects: Program number BRA 011, 16 LU hrs, non HSW).

REVIT ARCHITECTURE COLLABORATION TOOLS

Revit Architecture is a Building Information Modeling (BIM) tool, which can be used by more than one person working on a new project. The objective of the Revit Architecture collaboration Tools course is to enable students who have a basic knowledge of Revit to increase their productivity while working with other people on a team, either in the same firm or with other firms, and use Revit files or other CAD files.

11/9-12/8	8:00AM-4:30PM	Sa	LEPESKA A	

AUTOCAD

AUTOCAD LEVEL I & II

Students are introduced to the basics of engineering drafting and AutoCAD. Basic drawing commands, editing, dimensioning, and plotting are covered in this course. Requires a computer with a current version of AutoCAD. Class meets online at www.waol.org. RTC is a Premier Authorized Training Center for Autodesk, Inc.

FALL

DFTS 113 W664	6 CREDITS			ONLINE
9/20-12/6	ARR	ARR	LEPESKA A	

AUTOCAD-LEVEL I

An introductory class to AutoCAD that equips the user to use AutoCAD on a basic level. The students learn the basic principles of the user interface, drawing setup procedures, function keys, basic 2D drawing creation commands, file management commands, layers, inquiring about drawing information, introduction to block creation, hatching, introduction to dimensioning techniques, object snaps, commands for object viewing, basic editing techniques, and text annotations. RTC is a Premier Authorized Training Center for Autodesk, Inc.

AVIATION**AVIATION GROUND SCHOOL - PRIVATE PILOT**

This 60 hour aviation pilot ground course offers guidance and training to help pass the required FAA "written" knowledge test, the first step required toward achieving a FAA Pilot License. Also a great course for those just interested in learning more about aviation as it relates associated flight operations. 1/2 hour of Motion Simulator time is also included! (Subject to CFI availability). In addition, it provides an excellent in depth review for returning pilots. Some elements covered are generic piston aircraft systems, aerodynamics, weather, navigation, airport & airspace operations, communications and Federal Air Regulations. Upon successful completion of the course a certificate will be provided allowing the student to take the actual FAA multiple choice "written" test. Includes all books and other items such a plotter and mechanical flight computer. Off campus site classroom is located at Renton Municipal Airport, allowing direct access to aircraft, associated support items and airport operations when needed. Fee: \$435 No class on 11/6 and 11/22.

BOILER OPERATOR LICENSING CLASS 3 & 4

Students review boiler and pressure vessel construction and operation of steam and hot water heating plants and systems, including moderate size high-pressure boilers. This class is the first step in preparing individuals for a third or fourth grade license examination with the City of Seattle and the Tacoma Steam Advisory Certification Board. To qualify for license examination, eighty hours of observation time is also required. The eighty hours can be either observation on a job site or completion of BLRS 111, Boiler Operator Lab. For up-to-the-minute license exam information and changes, contact the City of Seattle or the City of Tacoma. Textbook required. No class on 11/24.

RENTON EMERGENCY PREPAREDNESS ACADEMY

REPA is a partnership between Renton Emergency Management, American Red Cross and Renton Technical College, providing courses to help people be better prepared to face any kind of emergency.

Group presentations upon request, 15 person minimum. Visit rentonwa.gov/rep for more information.

Si necesita más información sobre la clase en español, llame al (425) 430-7726.

The Renton Regional Fire Authority offers free, non-certification CPR and AED classes. Visit rentonrfa.com/cpr for more details.

COMMUNITY EMERGENCY RESPONSE TEAM (CERT) – SUMMER

In most disasters, survivors provide the first immediate assistance to those in need. CERT teaches you how to respond when others look to you for help. Are you ready? Learn skills like disaster first aid, fire suppression, utility safety, personal preparedness, light search and rescue, terrorism response, disaster psychology, and more! This class is a combination of lecture and hands on training to get you ready to help yourself and others during an emergency. Learn more at rentonwa.gov/cert. Ages 16 and up, minors must be accompanied by an adult. Sign up at rentonwa.gov/cybersignup.org or call 425-430-6700. Registration opens 3/30/2018.

8/23-8/25	8:00AM-5:00PM	ThFSa	SMITH K
		FEE: \$25R/\$30NR	RFS 14

COMMUNITY EMERGENCY RESPONSE TEAM (CERT) – FALL

After a disaster people should be prepared to take care of their own needs for a period of time until help arrives. CERT teaches individuals how to prepare for a disaster and help their neighbors. Topics covered include personal preparedness, first aid, fire suppression, search and rescue, terrorism, and team organization. Instruction includes a combination of classroom and practical hands-on training. CERT graduates serve as their own "first responders" during the critical period after a disaster when existing resources may be overwhelmed. Ages 18 and up (15+ w/guardian). Sign up at rentonwa.gov/cybersignup.org or call 425-430-6700. Registration opens 8/27/2018.

PLAYING WITH FIRE!

Playing with fire is generally not advised, but in this class that is exactly what we will do! After learning the basics of fire science, types of extinguishers and home fire safety in the classroom, we will go out to the fire training grounds and play with fire. This is a hands-on class to experiment with different types and sizes of fire extinguishers. You will leave the class with experience putting out fires and the knowledge you need to take action if you encounter a fire. Ages 14 and up, minors must be accompanied by a parent or guardian. Sign up at rentonwa.gov/cybersignup.org or call 425-430-6700. Registration opens 8/27/2018

ACCOUNTING

ACCOUNTING CLERK

Program Options

- *Certificate of Completion*
- *Program length: 2 quarters*
- *Entry point: fall, winter or spring quarters*

Accounting is the "language of business." This program provides basic fundamental skills in accounting theory and procedures and basic computer training in word processing, database, electronic spreadsheets, and general ledger. Upon completion of this program, the student has the fundamental skills for entry into the job market and also has the foundation for additional accounting training.

SUMMER

7/5-8/13 8:00AM-2:30PM DAILY H311
CHAMBERLIN/NEWCOME

AEROSPACE

AEROSPACE & INDUSTRIAL PRODUCTION TECHNOLOGIES

Program Options

- *Certificate of Completion*
- *Associate of Applied Science Degree*
- *Program length: 7 quarters*
- *Entry point: fall quarters*

This program prepares students or incumbent workers for careers in production and fabrication in lean industrial and technologically advanced environments, with a focus on aerospace and advanced manufacturing. Students will learn proper fabrication techniques as well as material handling and trade specific machine use. This course includes the evaluation of student comprehension in lecture, fabrication techniques and specialized equipment use from one lesson to the next. Students will learn to read and interpret engineering drawings to fabricate various parts or tools. Self-inspection and quality assurance standards are contextualized throughout the program, insuring critical thinking and just-in-time evaluative practices. Fabrication techniques and metrology intelligence are followed by applied training in advanced metrology, fabrication and structures production fundamentals in numerous manufacturing environments. **This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.**

ANESTHESIA TECHNOLOGIST

Program Options

- *Associate of Applied Science-Transfer (AAS-T) Degree*
- *Degree Program length: 6 quarters*
- *Entry point: winter quarter*

This program provides entry level training leading to an Associate of Applied Science-Transfer Degree (AAS-T). Curriculum is based on the American Society of Anesthesia Technologists and Technicians (ASATT) standards and guidelines. Course work includes the following: medical terminology, pharmacology, EKG analysis, anesthesia equipment principles and applications, and general medical knowledge. Included in the program are intensive clinical experiences in local area hospitals. Students must complete and pass a nationwide criminal background check prior to admission into the program at <http://portal.castlebranch.com/rr63> (use package code Rr65). Students must meet immunization and program specified health requirements, and proof of health insurance is required for participation in the program. Must be 18 or older and have a high school diploma or GED. Required before entry is a 5 credit Introduction to Anatomy and Physiology course.

Additional Program Fee: \$20/credit, max 15 credits per quarter

APPRENTICESHIP PROGRAM

Earn while you learn! Numerous joint apprenticeship Programs are affiliated with Renton Technical College. Apprenticeship Programs offer the opportunity to "earn while you learn." Apprentices typically work fulltime in their field, while attending school a few weeks/year or a few nights/week. Most apprenticeships are in the building and construction trades or manufacturing. Apprenticeship Programs last two to five years, and an apprentice's wages increase with experience. Some programs-Custodial, Ardagh Group Apprenticeship, and Stationary Engineers-are only open to current employees in participating companies. Other programs, listed below, accept applications from the broader community. Although the following apprenticeship programs are affiliated with Renton Technical College, each program has its own coordinator, joint labor-management committee, and selection procedures. Generally, applicants must be at least 17 or 18 years old, have a valid Washington state driver's license, and go through a selection process, which might include a written test, physical test, drug test, and interview. For more information on specific programs, please contact the apprenticeship coordinators listed below.

***Apprenticeship fee is per hour, Journeyman fee is per hour**

Renton Technical College offers an Associate of Applied Science degree in Multi Occupational Trades. This degree is open to graduates of apprenticeship Programs with at least 432 classroom hours. For more information on degree requirements, refer to the General Education classes in this College Catalog or call Student Success Center at (425) 235.5840.

**Not all programs are Financial Aid eligible. Please call the Financial Aid Office for current aid information at 425-235-5841.*

AUTOMOTIVE

AUTOBODY REPAIR AND REFINISHING

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 7 quarters
- Entry point: fall quarter

This program prepares students for entrance into the automotive collision repair industry. All courses are taught in accordance with recommended industry procedures and standards set forth by industry-recognized organizations such as the National Institute for Automotive Service Excellence (ASE) and the Inter-Industry Conference on Auto Collision Repair (ICAR). The program courses are divided into five main areas of study: Non-Structural Analysis and Damage Repair, Structural Analysis and Damage Repair, mechanical and electrical components, plastics and adhesives, and painting and refinishing. All shop training is performed using state-of-the-art tools and equipment within one of the most modern facilities in the nation. Emphasis is placed on safety and professionalism.

This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.

***Additional Program Fee: \$15/credit, max 15 credits per quarter**

AUTOMOTIVE, FORD ASSET

Program Options

- Associate of Applied Science Degree
- Program length: 8 quarters
- Entry point: fall quarter

Ford ASSET is a joint effort of Ford Motor Company, Renton Technical College and a sponsoring Ford or Lincoln dealership. The ASSET program utilizes specific periods (approximately nine weeks) of classroom/lab instruction alternating with specific periods of full-time work experience at a Ford or Lincoln dealership. Technical training on Ford automotive products is provided in all Automotive Service Excellence (ASE) repair areas plus specific Ford Motor Company Service Technician Specialty Training certification courses and covers the latest developments of Ford technology including: engines, fuel management, electronics, transmission/transaxles, brake systems and air conditioning. The program applies, in a real work setting, what a student learns during the previous instructional session. The student becomes familiar with the dealership environment and the organizational structure while developing competencies that are expected of a professional automotive technician.

AUTOMOTIVE TECHNOLOGY

Program Options

- Certificate of Completion
- Program length: 4-8 quarters
- Entry point: fall, winter and spring quarters

The Automotive Maintenance and Light Repair Technician program is the entry point for both the Automotive Technology and Automotive Technology programs. Students receive three quarters of ASE / NATEF training in a hands-on, live-work environment and a quarter of internship in an approved automotive repair facility where students can put their skills to work in a real work environment. Successful students should be able to pass ASE Certification exams in Maintenance and Light Repair, Brakes, Steering & Suspension, and Heating & Air Conditioning. Successful students may choose to advance to either Automotive Technology or the Automotive Technology program for more advanced training in vehicle power trains and electronics. In the three-quarter Automotive Technology Certificate of Completion program, students are prepared for the challenges of working on today's sophisticated and complex automobiles. Students learn all aspects of automotive repair and are provided with hands-on training in real-world shop environments using modern state of the art technologically advanced equipment and facilities. Students graduate with a Washington State Emission Certification and an ASE Refrigerant Recovery and Recycling Certificate. Students are provided the opportunity for ASE certification in Engine Repair, Automatic Transmission/Transaxle, Manual Drive Train, Suspension and Steering, Brakes, Electrical/Electronic Systems, Heating and Air Conditioning, Engine Performance, and Advanced Engine Diagnostics. By combining mechanical, electronic, math, communication and problem-solving skills with hands-on training, students develop a solid foundation to ensure their success in the automotive field. The Automotive Technology is a four -quarter Associate of Applied Science (AAS) program option in which students receive training in all eight NATEF/ASE automotive repair areas (Engine Repair, Manual Drive Train, Automatic Transmission, Brakes, Steering and Suspension, Heating and Air Conditioning, Electrical/ Electronic Systems, and Engine Performance). Students gain real work experience in the automotive shop environment and develop the competencies of a professional automotive technician.

BAND INSTRUMENT REPAIR TECHNOLOGY

BAND INSTRUMENT REPAIR TECHNOLOGY

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 3 quarters
- Entry point: fall quarter or with instructor permission

This program prepares graduates for entry-level employment in the band instrument repair and service trade. Students receive instruction in repair, maintenance, and adjustment of instruments belonging to the woodwind, brass, and percussion families. Special emphasis is placed on those skills, which make students employable in repair of these instruments. Related instruction is provided in safety, employment skills, and environmental concerns.

***Additional Program Fee: \$20/ credit, max 15 credits per quarter**

CENTRAL SERVICE TECHNICIAN

CENTRAL SERVICE TECHNICIAN

Program Options

- *Certificate of Completion*
- *Program length: 2 quarters*
- *Entry point: winter or summer quarters*

This program is designed to provide the training and the clinical experience required to prepare the students for the International Association of Healthcare Central Service Materiel Management (IAHCMM) Certified Registered Central Service Technician (CRCST). It can also be one's first step towards a career in the healthcare field. Students gain knowledge of national and international standards for decontamination and sterilization. Students study the principles of microbiology with emphasis on decontamination, disinfection and sterilization, with an overview of medical terminology, fundamentals of human anatomy, proper care and handling of surgical instrumentation, basic surgical instrument identification, inventory control, distribution, purchasing, and healthcare trends. Included in the program are intensive clinical experiences in local area hospitals. Students must complete and pass a nationwide criminal background check prior to admission into the program at <https://CastleBranch.com> (use package code Rr64). Students must meet immunization and program specified health requirements, and proof of health insurance is required for participation in the program.

COMMERCIAL BUILDING & INDUSTRIAL ENGINEERING

COMMERCIAL BUILDING ENGINEERING

Program Options

- *Certificate of Completion*
- *Associate of Applied Science Degree*
- *Program length: 8 quarters*
- *Entry point: fall, winter or spring quarters*

This program is designed so students can enroll for mornings, afternoons, or evenings to better fit their working schedule. Instruction areas include refrigeration and building systems, boiler operations, and hazardous waste management. Students learn to regulate and maintain heating, cooling, and ventilation systems for commercial buildings. An emphasis is placed on practical experience and hands-on training whenever possible. This program is a recognized "School of Technology" by the City of Seattle and the Tacoma Steam Advisory Certification Board.

COMPUTER-AIDED DRAFTING

COMPUTER-AIDED DRAFTING

Program Options

- *Certificate of Completion*
- *Program length: varies*
- *Entry point: fall, winter, spring, or summer quarters*

This program is intended for those individuals who wish to obtain employment in career fields where the production of technical drawings is an integral part of the organization's day-to-day operations. Course offerings are tailored to programming administration and address specific skill specialization areas within the drafting profession. The total course of instruction takes 15 credits, with a Certificate of Completion awarded. This program can be completed in as little as three quarters, but

actual completion times will be a factor of individual student desires and scheduling. Courses required include DFTS 114, DFTS 116, DFTS 118 and DFTS 140. All courses must be completed as listed for a certificate to be awarded, unless evidence of prior learning can be provided. These courses are also available to industry professionals and others who have had prior computer-aided drafting experience and wish to upgrade their skills and knowledge in specific areas. Students are welcome to take any course when offered which they feel may be of benefit and for which they have met any listed prerequisites. All courses emphasize hands-on training and are taught using the latest versions of AutoCAD software. Practical application is stressed whenever possible. Renton Technical College is an authorized Autodesk® Training Center. Please refer to Continuing/Community Education section of this schedule, and consult a counselor for details.

CULINARY ARTS

CULINARY ARTS

Program Options

- *Certificate of Completion*
- *Associate of Applied Science Degree*
- *Associate of Applied Science-Transfer Degree*
- *Program length: 6 quarters*
- *Entry point: fall, winter or spring quarters*

The Culinary Arts certificate program is accredited with the American Culinary Federation Education Foundation Accreditation Commission (ACFEFAC). It is designed to train students for work in the hospitality industry. All phases of basic fundamental cookery are addressed in a concise curriculum within a well-equipped industry kitchen and professional classroom. Emphasis is on the development of skills and techniques necessary for advancement within the industry. This program offers both lecture-based and lab-based courses. Beginning courses include fundamentals of knife skills, culinary safety/sanitation and introduction to the industry. In addition, the advanced lab-based courses include various cooking methodologies, garde manger techniques, advanced techniques, internship and more. Upon completion of Renton Technical College's Culinary Arts program graduates who have received an AAS or AAS-T degree and are current American Culinary Federation members have the opportunity to be certified as a "Certified Culinarian" by the ACFE.

DENTAL ASSISTANT

Program Options

- *Certificate of Completion*
- *Associate of Applied Science Degree*
- *Associate of Applied Science-Transfer Degree*
- *Program length: 4 quarters*
- *Entry point: fall or winter quarters*

This program has been granted accreditation approval by the Commission on Dental Accreditation, a division of the American Dental Association. Students are prepared for employment as Certified Dental Assistants (CDA). CDAs work in dental offices performing such tasks as four-handed dentistry, bookkeeping, x-rays, and expanded functions. The program includes lectures, demonstrations, small and large group discussions, and practicum. Class meets Monday through Friday from 8:00AM-2:30PM On clinic days, class meets from 7:30AM-3:00PM. The last six weeks of the program is a full-time internship at dental offices and/or clinics. The hours during internship vary depending on the intern site. Students must complete and pass a nationwide criminal background check prior to admission into the program at <https://certifiedbackground.com> (use package code Rr67). Must meet immunization and program specified health requirements and proof of health insurance coverage that covers the student during the length of the program.

EARLY CHILDHOOD CAREERS

EARLY CHILDHOOD CAREERS

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Associate of Applied Science-Transfer (AAS-T) Degree
- Program length: 1 to 6 quarters
- Entry point: fall, winter or spring quarters
- This program meets the Washington State Licensing Requirements for Certificate of Specialization

The Early Childhood Careers program prepares students for the care and early education of young children. Through classroom instruction and practical experience, this program builds the foundation for teaching and working effectively with children birth to age eight. Students gain skills necessary for designing curriculum, creating positive learning environments, and providing developmentally appropriate activities while taking into consideration culturally relevant and anti-bias practices. Students are required to complete an internship at a childcare center or in early childhood facilities where students may be currently employed. This program meets the Washington State Licensing Requirements. Classroom instruction is scheduled from 11:00AM-3:00PM daily, with practicum hours 8:30AM-11:00AM daily. If currently working in the Early Childhood field, work time may be applied to practicum requirements. Please call (425) 235-2202 for information.

ENGINEERING DESIGN TECHNOLOGY

ENGINEERING DESIGN TECHNOLOGY

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 4 quarters
- Entry point: fall, spring quarters

This program is designed to provide entry-level skills for students seeking employment in the drafting profession as a mechanical or architectural CAD technician. Students receive substantial training in mechanical drafting and industrial practices using both manual (board) and CAD (Computer Aided Drafting) techniques. Application of ANSI, ISO, and AIA standards is presented, with emphasis on standards used in the aircraft and aerospace industries. Advanced instruction in mechanical drafting, geometric dimensioning and tolerancing, is provided in the latter part of the program. Students become familiar with 3D modeling, document control procedures, and pictorial drawing. Related instruction in mathematics, oral and written communications, human relations/business leadership and employment skills, and basic computer and word processing applications are also provided. Ample time is devoted to hands-on instruction throughout the program.

COMPUTER SCIENCE

SECOND YEAR OF COMPUTER SCIENCE DEGREE PROGRAM

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Associate of Applied Science - Transfer (AAS-T) Degree
- Program length: 4 quarters
- Entry point: fall or winter quarters

This Computer Science program is a follow-on to the Applications Developer certificate. The student's education is expanded to prepare for entry in various careers in the Information Technology industry. Job titles include: client-server application developer/programmer; software tester; systems analyst; database developer/administrator; internet applications developer/webmaster, IT project manager. Students design, develop and test client-server applications with emphasis placed on Microsoft Visual Studio.NET., C#, Web Development (ASP.NET), SQL database Development (Microsoft SQL Server), graphics, XML, networking, software testing, e-commerce and Java. Reinforcement of theory is achieved through lab projects and close instructor contact. Safety is emphasized and leadership, ethics, teamwork, math and written/verbal communications are covered. Project management for Information Technology is presented with hands-on practice using curriculum modeled after the CompTIA certification content. **This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.**

BACHELOR OF APPLIED SCIENCE – APPLICATION DEVELOPMENT

Completed after the Computer Science 2 Year Degree Program

Program Options

- Program length: 6 quarters
- Entry point: fall quarter

This program is the follow-on to the Computer Science 2-year associate program. Students must have completed the Computer Science Associate of Applied Science degree before moving into the BAS program. The BAS program will prepare graduates for employment in the field of information technology. Application Development is a high demand occupation that encompasses various aspects of data analysis, application and software development, programming, and project management. Students with associate technical degrees in information technology, database management, programming, and related areas will be good candidates for our BAS in Application Development program. Graduates of this program can expect to find work as software developers (applications and systems software), computer systems analysts, Web developers and programmers, database administrators and IT project managers. In addition to a strong technical foundation, graduates will have received instruction in general education topics in science, communications, and quantitative reasoning; and have gained extensive experience working in teams, creating and conducting presentations, and authoring documentation for software development. The skills obtained by graduates of this degree program are transferrable to numerous information technology and computer systems positions across multiple industries, including corporations, nonprofit organizations, IT companies, and medical and research institutions. A cooperative work experience is possible for second year students upon recommendation of instructor and subject to availability. Please contact Advising at (425) 235-5840 for admission requirements and curriculum information.

*Additional Program Fee: \$50 per course

BACHELOR OF APPLIED SCIENCE – COMPUTER NETWORK ARCHITECTURE

Completed after the Computer Network Technology Associate Degree Program

Program Options

- Bachelor of Applied Science Degree
- Program length: 6 quarters
- Entry point: spring quarter

The BAS in Computer Network Architecture degree will prepare graduates for employment in the field of information technology. Computer Network Architecture is a high demand occupation that encompasses various aspects of computer hardware and software architecture and systems administration. Students with technical associate degrees in Network and System Administration, Computer Systems Networking and Telecommunications, Information Technology, Cyber Security and other related areas will be good candidates for our BAS in Computer Network Architecture program. Graduates will receive a deep technical foundation in designing and implementing computer and information networks; performing network modeling, analysis and planning; and implementing advanced cloud and virtualization technologies at the enterprise level. In addition to a strong technical foundation, graduates will receive instruction in general education topics in science, communications, and quantitative reasoning; and will gain extensive experience working in teams, making presentations, and participating in on-the-job training. The degree will prepare a graduate to work as computer network architects, engineers and network managers, in a wide range of organizations and industries including corporations, nonprofit organizations, IT companies, and medical and research institutions.

*Additional Program Fee: \$50 per course

LEGAL ASSISTANT

LEGAL ASSISTANT

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 4 quarters (or 6 quarters through the hybrid option)
- Entry point: fall, winter, or spring quarters, or with instructor permission

This program prepares students to work in law firms, law-related offices, including the courts, government agencies, non-profits, and corporate legal departments as legal assistants, paralegals, legal receptionists, clerks, litigation practice assistants, and legal support professionals. Word processing and computer applications are emphasized as well as legal/ business terminology and communications, document preparation and procedures for today's high-tech law offices. This program provides a foundation for students interested in preparing for the NALS Accredited Legal Professional (ALP) examination. A cooperative education option or internship may be available. (Students entering without keyboarding skills may take longer to complete.) Internet access with current RTC student e-mail, Adobe Reader and MS Office is required.

*Additional Program Fee: \$5/credit, max 15 credits per quarter

MAJOR APPLIANCE AND REFRIGERATION

MAJOR APPLIANCE AND REFRIGERATION TECHNOLOGY

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 8 quarters
- Entry point: fall or spring quarters

This program offers practical technical training in the repair and troubleshooting of all major appliances. Instruction is designed to duplicate conditions and requirements experienced by a technician working in the field. Emphasis is placed on developing a thorough understanding of electrical, mechanical, and refrigeration theory through classroom experiences and practical application. Proficiency is developed by using test equipment to improve diagnostic and repair techniques. Students are introduced to all aspects of the industry including parts procurement, work order/parts development, and industrial communications. This program is approved as an electrical specialty training school for Appliance Repair (07D) by the Washington State Department of Labor and Industries, Electrical Section. This program is accredited by the Professional Service Association, a national appliance industry organization. **This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.**

MACHINING

PRECISION MACHINING TECHNOLOGIES

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 8 quarters
- Entry point: winter or summer quarters

This two-year program is designed to help students acquire and develop skills necessary to work in the manufacturing industry. The course integrates theory and practical applications in a fully equipped machine shop facility. Students study machining processes and procedures, properties of metals, blueprint reading, applied math, inspection techniques, Computer Aided Manufacturing utilizing Mastercam software, and the operation of Computer Numerical Control (CNC) machines. The CNC equipment includes vertical and horizontal machining centers as well as CNC Lathes with live tooling. When appropriate, students may be assigned to a cooperative workstation in industry. This program articulates with Tech Prep Programs through the South King County Tech Prep Consortium. **This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.**

COMMERCIAL REFRIGERATION TECHNOLOGY

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 4 quarters
- Entry point: fall or spring quarters

This training program for Refrigeration Technicians enables students to develop the skills necessary to work as service technicians on domestic and commercial refrigeration, air conditioning and heat pump systems. Emphasis is placed on developing a thorough understanding of electrical and refrigeration theory through classroom experiences and practical application. Service, repair, and troubleshooting techniques are taught on late model equipment in a fully equipped training facility. Students are taught how to safely handle, store, and dispose of CFC refrigerants, according to EPA requirements, related to diagnostic, service, and repair procedures. Technical proficiency and competency are developed by using test and service equipment to improve diagnostic and repair techniques. Laboratory experience helps develop skills in brazing and soldering of copper, steel, and aluminum. This program is approved as an electrical specialty training school for Appliance Repair (07D) by the Washington State Department of Labor and Industries, Electrical Section. This program is accredited by the Professional Service Association, a national appliance industry organization.

MASSAGE THERAPY PRACTITIONER

MASSAGE THERAPY PRACTITIONER

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Associate of Applied Science-Transfer (AAS-T) Degree
- Program length: 3 quarters
- Entry point: fall quarter

This program, approved by the Washington State Board of Massage, prepares students to become professionally licensed to practice therapeutic massage for health maintenance, assessment, and rehabilitation of body tissues and systems. Therapeutic massage is an integral part of sports medicine, nursing care, physical, mental, and emotional well-being. The program offers training in diverse modalities including Swedish massage, deep tissue massage, myofascial release, hydrotherapy and hot stone massage. Student clinic and internship experience are required. Successful completion of this program prepares the students to take the Washington State Massage Licensing examination. A Certificate of Completion is awarded upon successful completion of core course requirements (two [2] attempts per course only). To earn an Associate of Applied Science (AAS) or Associate of Applied Science-Transfer (AAS-T) degree, students must complete all requirements of the certificate program plus 20 credits of General Education. Students must complete and pass a nationwide criminal background check prior to admission into the program at <https://certifiedbackground.com> (use package code Rr68). Students must meet program specified health requirements, and proof of health insurance is required for participation in the program. Students are required to join the American Massage Therapy Association and the Washington State Chapter. The cost is in addition to tuition. The cost includes AMTA membership, Washington Chapter membership, and liability insurance. Copy of proof of membership will be required at time of registration.

MEDICAL ASSISTANT

MEDICAL ASSISTANT

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Associate of Applied Science-Transfer (AAS-T) Degree
- Program length: 4 quarters
- Entry point: fall, winter quarters

This program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Curriculum Review Board of the American Association of Medical Assistants Endowment (CRB-AAMAE), CAAHEP, 1361 Park Street, Clearwater, FL 33756, (727) 210-2350. The program prepares students to become multi-skilled professionals to perform a variety of patient-related tasks in physician offices and other health care settings. The curriculum is designed to meet the requirements for Medical Assistant- Certified as described in RCW 18.360. Students learn to set up clients for examination, draw blood for basic lab studies, administer certain medications, do EKGs, assist with minor surgical procedures and perform front office skills related to medical records and billing. A clinical externship is included. A Certificate of Completion is awarded upon successful completion of core course requirements. To earn an Associate of Applied Science (AAS) or Associate of Applied Science-Transfer (AAS-T) degree, students must complete the certificate program and meet the general education course requirements. Included in the program are intensive clinical experiences in local area hospitals. Students must complete and pass a nationwide criminal background check within 3 months prior to admission into the program at <https://certifiedbackground.com> (use package code Rr69). Students must meet immunization and program specified health requirements, and proof of health insurance is required for participation in the program.

NURSING

NURSING ASSISTANT

Program Options

- Certificate of Completion
- Program length: 1 quarter
- Entry point: fall, winter, spring or summer quarter

This program meets both Washington state and federal curriculum requirements for Nursing Assistant Certification. Once certified, graduates are eligible for employment in hospitals, clinics, long-term care facilities, retirement/assisted living facilities, adult family homes, and in-home health care. Students gain knowledge and learn skills caring for patients of various age groups during acute and chronic stages of diseases, surgery, and rehabilitation, as well as how to maintain health during the normal aging process. Included in the curriculum are patients' rights, basic bedside nursing skills, patient/personal safety, HIPAA, and HIV/AIDS education. Skills are practiced in the program laboratory. Clinical experience occurs in acute hospitals and/or skilled nursing facilities. Hours vary during clinical assignment including possible evening or weekend placement. Students must pass all coursework with a 2.0 average or better and a satisfactory completion of clinical and lab for their certificate. This program is the first phase of the career ladder option for students to become Licensed Practical or Registered Nurses. Students must complete and pass a nationwide criminal background check prior to admission into the program at <https://certifiedbackground.com> (use package code Rr75na). Must meet immunization and program specified health requirements and proof of health insurance coverage that covers the student during the length of the program.

REGISTERED NURSE, ASSOCIATE DEGREE

Program Options

- Associate of Applied Science Transfer (AAS-T) Degree
- Program length: 6 quarters
- Entry point: fall and spring quarter

The Nursing Program at Renton Technical College prepares students for employment as registered nurses in a variety of health care environments in the surrounding community. Students who successfully complete the program will receive an Associate in Applied Sciences-Transfer (AAS-T) degree and be eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN) exam. The program also prepares students to transfer to an RN-BSN program after obtaining the RN license. A concept-based curriculum supports students from varied backgrounds by relating new ideas to previously acquired knowledge in an engaging and supportive environment. Students are provided with many opportunities to acquire the necessary critical thinking skills for practice as Registered Nurses in the dynamic healthcare environment. Nursing students will be equipped to provide safe, comfort-oriented, culturally-sensitive nursing care that meets the highest professional standards and serves a diverse population. This includes the utilization of nursing informatics and information technology to provide optimal, evidence-based nursing care now and throughout their career. Students must complete and pass a nationwide criminal background check prior to admission into the program at <https://certifiedbackground.com> (use package code Rr75nur). Must meet immunization and program specified health requirements and proof of health insurance coverage that covers the student during the length of the program.

PHARMACY TECHNICIAN

PHARMACY TECHNICIAN

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Associate of Applied Science-Transfer (AAS-T) Degree
- Program length: 4 quarters
- Entry point: fall quarter

This ASHP (American Society of Health-System Pharmacists) accredited program prepares students for practice as Pharmacy Technicians performing a wide variety of tasks in both retail and hospital pharmacies under the supervision of a pharmacist. This course will give students the necessary foundation of information and skills for the required National Certification Exam. Program content includes but is not limited to theory in areas such as pharmacology, pharmacy law, pharmaceutical math, and drug product knowledge. Practical application skills such as intravenous admixture, prescription filling, and compounding of products to be dispensed are also acquired. Clinical externship experience in both hospital and a retail pharmacy is included. Student must be attending high school, possess a high school equivalency certificate, or be a high school graduate to enter the program. Students must complete and pass a nationwide criminal background check prior to admission into the program at <https://certifiedbackground.com> (use package code Rr72). Must meet immunization and program specified health requirements and proof of health insurance coverage that covers the student during the length of the program.

- Program length: 4 quarters
- Entry point: open entry

Students have the opportunity to learn the baking basics and the science of baking in an exciting well-equipped kitchen setting. This course is a fast paced program following the industry standards and practices of classical and contemporary baking. A variety of learning competencies and learning methods designed for our progressive program enables the program to offer highly concentrated, focused, and hands-on curriculum. Students participate in scaling and mixing, dough production, retail operations and oven work in our production kitchen. The courses reviewed include; breads, pies, pastries, cookies, doughnuts, cakes and specialty decorating. Bakery math, customer service and human relations courses will assist the student with developing a portfolio. The program supports a retail bakery offering a broad selection of baked goods, cakes and pastries finished to industry standards. If you enjoy teamwork, bakery production, timelines, and creating delicious baked goods in a commercial baking environment, this program is for you!

***Additional Program Fee: \$10/credit, max 15 credits per quarter**

PROPERTY MAINTENANCE

PROPERTY MAINTENANCE FOR THE MULTI-FAMILY RESIDENCE

Program Options

- *Certificate of Completion*
- *Entry point: any quarters*
- *Program length: evenings and occasional Saturdays*

Students gain skills necessary to secure positions in property maintenance for multi-family residences. Training components include: safety and emergency procedures; painting and drywall repairs; maintaining an attractive outdoor environment; basic electrical theory, repairs and replacements; basic plumbing repairs and replacements; basic appliance repairs; customer service; First Aid/CPR; and job search skills and advancement skills. Students who are incumbent workers are encouraged to take optional courses in this program, and continue into the Leadership in the Trades program upon completion of this certificate.

SURGICAL TECHNOLOGIST

SURGICAL TECHNOLOGIST

Program Options

- *Certificate of Completion*
- *Associate of Applied Science Degree*
- *Associate of Applied Science-Transfer (AAS-T) Degree*
- *Program length: 4 quarters*
- *Entry point: fall or spring quarter*

The Surgical Technologist program is accredited nationally by the Commission on Accreditation of Allied Health Education Programs in collaboration with the Association of Surgical Technologists and the American College of Surgeons. In this program, the student is trained to become an integral part of the team of medical practitioners providing surgical care to patients. The student will be taught to facilitate the safe and effective conduct of invasive surgical procedures, ensuring that the operating room environment is safe, that equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety. The student will be trained to possess expertise in the theory and application of sterile and aseptic technique and combine the knowledge of human anatomy, surgical procedures, and implementation tools and technologies to facilitate a physician's performance of invasive therapeutic and diagnostic procedures. A major portion of

the course training occurs in a variety of regional healthcare facilities. A Certificate of Completion is awarded upon successful completion of core course requirements (two [2] attempts per course only). To earn an Associate of Applied Science (AAS) or Associate of Applied Science-Transfer (AAS-T) degree, students must complete the certificate program and meet the General Education course requirements. The prerequisite, a 5- credit Introduction to Anatomy & Physiology course, is part of the General Education requirements for the AAS degree. Students must complete and pass a Nationwide criminal background check within 3 months prior to admission into the program at <https://certifiedbackground.com> (use package code Rr73). Must meet immunization and program specified health requirements and proof of health insurance coverage that covers the student during the length of the program.

SURVEYING & GEOSPATIAL SCIENCE

FIELD SURVEY TECHNICIAN

Program Options

- *Certificate of Completion*
- *Program length: 4 quarters*
- *Entry point: fall quarter, bi-yearly*

This program prepares students for work as a field survey technician, starting with "chain person" and advancing to "instrument person" or "party chief". Students learn field survey techniques, calculation and office skills through extensive hands-on training using a variety of up-to-date instruments, including total stations with data collectors, hand-held calculators and computers. Group projects in the classroom and in the field develop both experience and leadership skills. Projects involve all aspects of work, from planning, measuring and taking field notes. Transfer credit from other institutions will be considered upon validation of transcript and course work. This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.

**Not all programs are Financial Aid eligible. Please call the Financial Aid Office for current aid information at 425-235-5841.*

LAND SURVEY TECHNICIAN - GEOSPATIAL SCIENCE

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 3 quarters
- Entry point: fall quarter, bi-yearly

This three-quarter program is a follow-on to the Field Surveying Technician certificate program. This program emphasizes professional land surveying practices to enable graduates to continue their careers toward their Professional Land Surveyor licenses. Students train on the industry's most powerful software for survey reduction, coordinate geometry and drafting. They also learn land and field surveying practices, field and office techniques, and the use of a variety of up-to-date instruments, including total stations with data collectors and GPS. Group laboratory projects provided throughout the program develop leadership skills and awareness. To earn an Associate of Applied science Degree, the student must complete all requirements for the Land Survey Technician certificate program plus all requirements for the Field Survey Technician certificate program and 15 credits of General Education. Transfer credit from other institutions is considered upon validation of transcript and course work. Many courses in this program transfer to Oregon Institute of Technology Bachelor of Science Degree in Geomatics, Surveying option, and Idaho State University Bachelor of Science Degree, Geomatics Technology.

This program is undergoing substantial revisions effective Fall 2018 pending NWCCU accreditation.

VETERINARY ASSISTANT

VETERINARY ASSISTANT

Program Options

- Certificate of Completion
- Program length: 4 quarters
- Entry point: fall quarter

The Veterinary Assistant program prepares students to assist the veterinarian in all aspects of animal care. Veterinary Assistants provide surgical and nursing care to animals in clinics, as well as field settings. They also provide basic care, perform laboratory procedures, and assist in the veterinary clinic with other functions. Veterinary Assistants work in a variety of settings including animal hospitals and clinics, animal shelters, laboratories, zoos, and animal parks. The program includes classroom theory, laboratory, and internship experience in local veterinary clinics. Students receive hands-on experience with animals. Program content requires the application of basic math, technical reading, and communications skills. Proof of health insurance for length of program required.

WELDING

WELDING

Program Options

- Certificate of Completion
- Associate of Applied Science Degree
- Program length: 5 quarters
- Entry point: fall, winter, spring quarters

This program is designed to prepare welders for job entry in most phases of the welding industry. The certifications in this program are progressively sequenced for multiple completion points, and the student must take each certification in order, unless prior learning is deemed satisfactory. Classroom and practical experience is offered in the seven most common manual and semi-automatic welding processes; OFW (gas), SMAW, GMAW, FCAW, GTAW, SAW (arc) (MIG and TIG) welding. The instruction in this program is hands-on individualized as well as group lessons. Previous experience determines a student's starting point. A student's motivation and ability to move through the program competencies will determine the level of achievement in each welding process. Washington state welder certification, WABO (Washington Association of Building Officials) is available in six of the arc welding processes. This program articulates with Tech Prep programs through the Puget Sound Dual Credit Career Consortium. ***Additional Program Fee: \$50/credit, max 15 credits per quarter**

DIRECTIONS TO THE RTC CAMPUS

MISSION STATEMENT

Renton Technical College prepares a diverse student population for work, fulfilling the employment needs of individuals, business, and industry.

DIVERSITY STATEMENT

Renton Technical College seeks to create a healthy, positive, respectful environment where the many voices of our students, faculty, and staff are heard and valued. The RTC community will accomplish this through awareness and the ongoing development of the knowledge and skills necessary to learn, work, and thrive in a diverse community.

PUBLICATION DISCLAIMER

The Class Schedule is published for information purposes only. Although every effort is made to ensure accuracy at the time of publication, this class schedule shall not be construed to be an irrevocable contract between the student and Renton Technical College. The College reserves the right to make any changes in the content and provisions of the Class Schedule without notice. In addition, the College reserves the right to cancel, change class fees or meeting dates and times at any time, without notice. Be advised that new Programs proposed are subject to final approval by appropriate state agencies.

NON-DISCRIMINATION STATEMENT

We are an affirmative action and equal opportunity employer. Renton Technical College provides equal opportunity in education and employment and does not discriminate on the basis of race or ethnicity, creed, color, national origin, citizenship, sex, marital status, sexual orientation, gender identity, age, religion, disability, genetic information, or veteran status. The college complies with applicable laws prohibiting discrimination and harassment in employment, educational programs and admissions, including Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, Americans With Disabilities Act of 1990, the Age Discrimination Act and the state law against discrimination, chapter 49.60 RCW. Inquiries regarding compliance procedures and complaints may be directed to the college's Title IX Officer Lesley Hogan (425) 235-7873.

LIMITATION OF LIABILITY

The college's total liability for claims arising from a contractual relationship with the student in any way related to classes or Programs shall be limited to the tuition and expenses paid by the student to the college for those classes or programs. In no event shall the college be liable for any special, indirect, incidental, or consequential damages, including but not limited to, loss of earnings or profits.
